~~~~~

Notes:

Bill Robberson provided a situational brief.

Gina Cristiano briefed on activities up in Colorado: Flow has been reduced and is being treated, created additional ponds to contain outflow

Rose Davis noted some serious Coms problems; as a public affairs person wants to be to plugged into the JIC. She continues to get questions from the Tribes and Irrigation districts on potential impacts from the release.

Jeff Smith stated that he had received some inquiry from the Imperial Valley Irrigation district on potential impacts to water in that region.
